A product of the Women's Environment
and Development Organization

Agenda

- ❖ Welcome and Intro to the GCT
- ❖ Review of the Key Features of the GCT
- ❖ Sexual and Gender Diversity within the Gender Climate Tracker
- ❖ NDC Analyses
- ❖ Looking Forward to COP28: How can we use the GCT?
- ❖ Closing Remarks and Questions

Gender Climate Tracker:

Introduction and Overview

Tara Daniel and Claudia Rubio
WEDO

History

- ❖ Launched in **2016** after the Paris Agreement as an app, **2018** as a website
- ❖ Understand **gaps** and **track progress** regarding gender within UNFCCC processes
- ❖ Tool for **advocates, negotiators, practitioners,** and **decision-makers**

What can the GCT do?

- ❖ **Provide** easy, on-the-go access to key statistics, policies, and research
- ❖ **Track** gender-responsive climate action globally
- ❖ **Support** relevant stakeholders to further understand and advance the implementation of gender-responsive climate policy

By reviewing, compiling and publishing this information, the app empowers decision-makers, advocates and civil society to hold their governments accountable to their gender commitments.

Out4Sustainability*

Sexual and Gender Diversity within the Gender Climate Tracker

BY: LEO GOLDSMITH AND DIEGO DE LEON

OUT4S Background

We are a national non-profit that provides a platform for co-creating climate resilience and environmental justice by and for LGBTQIA+ communities.

Our board is made up of queer, transgender, and allied experts on climate and environmental impacts on LGBTQIA+ communities

Current and previous activities:

- Collaborative events focused on emergency management for LGBTQIA+ communities
- Fiscal sponsorships of queer and trans grassroots groups in Puerto Rico
- Full-day queer climate justice institute
- Sharing resources

Included Literature

Literature scales from international to local scale

Sexual and gender minorities face economic, health, and social disparities that are exacerbated due to climate-related disasters

Sexual and gender minorities are overwhelmingly not included in climate adaptation plans or disaster mitigation, preparedness, response, and relief leading to services and resources that do not consider their needs.

- Barriers of access to services and resources
- Discrimination in services
- Impacts gender minorities disproportionately

International work

Submissions with inputs for the third technical dialogue of the Paris Agreement Global Stocktake

Submission on the views for the output of the Paris Agreements Global Stocktake (included global survey)

- The Secretariat included three specific references in the final report that explicitly mention the LGBTQ+ people

Lessons learned and next steps

- There is a general lack of peer-reviewed articles and quantitative data. Most of the information available is anecdotal.
- Most of the literature is centered in the United States.
- Databases such as the GCT and ProQuest Gender were crucial in identifying relevant sources
- Expert review was fundamental to improving the quality of the submissions.
- This process can be replicated in other multilateral environmental discussions

Views on the elements for the consideration of outputs component of the first global stocktake

Synthesis report by the secretariat

15. Many non-Party stakeholder reiterated that the global stocktake outcome affirm that Parties will respect, protect and fulfil obligations on human rights including the right to a clean, healthy and sustainable environment, the right to health, the rights of indigenous peoples, local communities, migrants, children and youth, farmers, persons with disabilities, refugees, the **LGBTQ+** community and people in vulnerable situations and the right to development, as well as gender equality, empowerment of women and intergenerational equity.

50. A few of the non-Party stakeholders highlighted that there is still a notable lack of substantial involvement of **LGBTQ+** individuals in climate change discussions and policymaking.

417. Some non-Party stakeholders emphasized the need for an inclusive crisis management plan that consider the needs and experiences of the **LGBTQ+** community in the aftermath of climate disasters.

Gender reference

Decides to extend the **Lima Work Programme on Gender (LWPG)** for a period of three years, to be reviewed at COP25 in 2019.

The Decision takes forward many of the activities that were part of the initial work programme including,

- a) training for delegates on **gender and climate change**;
- b) capacity building/negotiation skills for **women delegates**;
- c) a set of in-session workshops in 2018 & 2019; and
- d) technical guidance on entry points related to **gender** across other

How-To: Negotiator

- ❖ Cross-check proposed text on different thematic areas
- ❖ Reference based on year, tags and themes
- ❖ Intervene with textual support and evidence

Gender reference

18. Requests the Board to consider enhancing ambition in the next version of its **gender policy** and invites the Board to take into account the implementation of the enhanced Lima work programme and its **gender action plan** within its existing guidance;

19. Encourages the Board to consider enhancing the provision of support through the Readiness and Preparatory Support Programme for the development of national and subnational **gender strategies**, as they relate to climate, and consider further strengthening the **gender programming** of Green Climate Fund activities through supporting the implementation of the policies and projects therein;

Women's Participation: Civil Society Advocates

- ❖ Use information on delegation size and breakdown by sex across meetings to inquire about commitment to and support for gender balance

Women's Participation: Negotiators

❖ Compare your historical women's participation data to Parties with similarities to yours, including similar delegation size

Country Profiles

- ❖ Consider your country's NDC and how it represents your contribution to the Paris Agreement
- ❖ Gain knowledge of your country's relevant news and resources, including NAP analyses and UNFCCC submissions
- ❖ Identify various actors who may be working in your country using news and resources

Key Takeaways

Know the data: *The most effective advocacy is informed advocacy.* On your road to COP28, review the GCT to gain key information to hold parties accountable to their commitments.

Understanding gender across multi-lateral agreements and policies: The new features in the GCT allow us to *enhance collaboration and strengthen gender-responsive advocacy* across multilateral agreements and policies.

Become a Gender Climate Tracker! Our 2-minute [video](#) reviews the GCT and describes how to submit resources. You play a role in tracking the implementation of gender-responsive climate action.

By providing easy, on-the-go and relevant information, the GCT serves as a key tool on your road to COP28.
